

## ACRC and Additive Plus Working Together

Featured left to right are: Prof Dan Mumm, Dr. Carl Soderhjelm, Ashkhen Ovsepyan (CEO of Additive Plus), Prof. Diran Apelian, Jack Webster, Cheolmin Ahn, and Calvin Belcher.

We are happy to share that ACRC and [Additive Plus](#) have entered into a strategic partnership to advance the field of powder production and additive manufacturing.

Additive Plus is a California additive manufacturing company, providing industrial 3D printing and atomizing solutions, supplying advanced materials and delivering 3D printing services in the USA. It offers additive manufacturing expertise, as well as digitization, application engineering, technology and strategic consultancy, training & education.
