

Diran Apelian is 2024 ASM Award Program Recipient

Congrats!

2024 ASM Award Program Recipients
The ASM International Board of Trustees has named award program recipients for 2024. The awards program recognizes the achievements of members of the Materials Science and Engineering community. Awards will be presented at ASM's Awards Dinner Tuesday, October 1st in Cleveland, OH during the IMAT24. Honorary Membership in the Society was established in 1919. It recognizes distinguished service to the Materials Science and Engineering profession, service in areas of ASM strategic plan/initiatives and to the progress of mankind.

.....

**DISTINGUISHED
PROFESSOR
DIRAN APELIAN**

Prof. Diran Apelian, FASM
Distinguished Professor,
University of California, Irvine

"For the Development of Solutions for Sustainability Challenges of the 21st Century: carbon-reduced infrastructure, recovery and reuse, and energy storage, and for over 5 decades of service and leadership to the field."

The ASM International Board of Trustees has [named award program recipients](#) for 2024 and this year Diran is among them for his service to the materials science and engineering profession. Specifically, he's being recognized for "the Development of Solutions for Sustainability Challenges of the 21st Century: carbon-reduced infrastructure, recovery and reuse, and energy storage, and for over 5 decades of service and leadership to the field."

Awards will be presented at ASM's Awards Dinner, Tuesday, October 1st in Cleveland, OH during IMAT24.

Congratulations, Diran! We are all so proud of you.
