

ACRC is FEF Certified

SCHOLARSHIPS * COLLEGE PROGRAM SUPPORT * JOB RESOURCES

WPI and ACRC have been certified for three years by the Foundry Educational Foundation.

The Advanced Casting Research Center and WPI worked together to officially become part of the FEF network of schools, dedicated to the next generation of talent for the metal casting industry. WPI earned high marks for its commitment to its lab and foundry activities, including a new furnace, molding equipment, new space and associated devices.

Overall, the university and its center was recognized for its vision and commitment towards foundry needs of the future (Manufacturing 4.0) and related multi-disciplinary talent demands. The FEF recognized this concept as “forward thinking and an area that WPI can take the lead in within the FEF network of schools through its research, partners, and promotion of metal casting to a broad range of students.”
