Korean University Researchers Visit ACRC

Prof. Eunkyung Lee, previously an ACRC Postdoc, is now Professor at the National Korea Maritime and Ocean University (KMOU) and heads its Metalcasting Research Laboratory. Five graduate students (Junyeop Lee, Gihoon Moon, Jaehui Bang, Minhye Kang, and Minjeong Jeon) recently visited ACRC and shared their works and research interests.

The visit was funded by the International Education Program, a Design Creativity & International Communication program.

Discussions are currently underway to establish a strategic relationship with UCI’s ACRC and KMOU. These discussions will continue at the World Foundry Congress in Korea October 16-20, 2022.
