

NioCorp Joins ACRC, Intensifying Aluminum-Scandium Alloy Commercial Program Effort

Scott Honan, NioCorp's Chief Operating Officer, is leading NioCorp's involvement with ACRC, with a focus on accelerating NioCorp's efforts to develop commercial applications for AlSc alloys in partnership with mid-stream processors and end-use consumers.

Honan said, "We are very pleased to be supporting the ACRC and working with Diran Apelian and the great team he has assembled, and I look forward to seeing our commercial program for AlSc alloys bear fruit, particularly in transportation and defense technology markets."

NioCorp is developing a critical minerals project in Southeast Nebraska that will produce niobium, scandium, and titanium. The Company also is evaluating the potential to produce several rare earths from the Project.
