Ravi Tilak Receives Ray Witt Award

We are pleased to share that Ravi Tilak of Almex USA was selected by the ACRC Board to receive the Ray H. Witt Award. He was awarded this recognition at ACRC's December meeting.

The award is given to an industrialist who has made an impact on the industry and has advanced the metal casting field. The award is named after Ray H. Witt, who was a pioneer in metal casting and was the first recipient of the award in 1999.
