

## METAL Boot Camp at OSU

OSU has conducted 10 bootcamps with 136 attendees for the [Metallurgical Engineering Trades Apprenticeship & Learning](#) (METAL) program aiming to reverse the decline of the U.S. casting and forging workforce, while inspiring a new generation of metallurgical professionals. Led by the [Institute for Advanced Composites Manufacturing Innovation](#) (IACMI) and supported by the Department of Defense, METAL aims to empower individuals and engage them in the field of metallurgy. The program also aims to reverse the decline of the U.S. casting and forging workforce, while inspiring a new generation of metallurgical professionals. Guided by industry and faculty experts, students gain valuable insights and open doors to careers in metalcasting and forging.
